

Quality Policy

Quality Policy Statement for **Control Direction Pty. Ltd.**

Control Direction is committed to management practices and philosophies that provide best in class solutions and products for our clients to extract maximum value from their facilities.

Control Direction is a quality conscious organization committed to the following framework for establishing and review of our quality objectives:

-
1. Understanding, meeting and where possible exceeding our client requirements.
 2. Applying innovation and team review to our workplace
 3. Continuously developing and improving the component procurement, assembly and skills required for delivery of our manufactured products.
 4. Providing a fulfilling and safe working environment.
 5. Continuously improving the effectiveness of our Quality Management System.
-

Management, our employees and contractors are directly responsible for the use and application of our Quality Management System.

To ensure suitability and relevance this policy is reviewed annually by Control Direction management.
